DETAILED ACTION

This action is in response to an amendment filed on November 17, 2010 for the application of Grebenev, for a "Kernel-level method of flagging problems in applications" filed February 23, 2004.

Claims 2-18, 20-23, and 25-30 are pending in the present application.

Claims 2-7, 10-15, 17-18, 20-23, and 25-30 have been amended.

Claims 1, 19, and 24 have been cancelled.

Claims 2-18, 20-23, and 25-30 are allowed.

Claim Objections

In view of the Applicant's amendments to claim 7, the previous objections to the claim have been withdrawn.

Claim Rejections - 35 USC § 112

In view of the Applicant's amendments to claims 12 and 15-17, the previous rejection of above claims has been withdrawn.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jenni Moen on November 19, 2010. The application has been amended as follows:

As per claims 29 and 30, in line 1, "claim 19" is to be replaced by --claim 20--

As per claim 10, in line 3, "an identifier of the" is to be replaced by --an identifier of--

As per claim 11, in line 7, "identifies the" is to be replaced by --identifies--

As per claim 17, in line 16, "usage of the" is to be replaced by --usage of--

As per claim 20, in line 26, "whether the" is to be replaced by --whether--

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

In view of the above examiner's amendments with respect to claims 2-7, 10-15, 17-18, 20-23, and 25-30 and after a complete search of all the relevant prior art, the examiner has determined the claims are in condition for allowance. The following limitations when viewed in combination with the remainder of the claim as a whole place this application in condition for allowance.

As per claim 5, the examiner finds the novel and non obvious feature of claim 5, when read as whole to be wherein the one or more applications comprise one or more user applications initiated at the user level; and wherein monitoring at a kernel level system resource usage of one or more running applications comprises monitoring at a kernel level system resource usage of one or more running processes belonging to one or more user applications wherein the one or more running processes comprise one or

more processes initiated at the kernel level by the one or more user applications, the system resource usage comprising kernel space memory used by each of the plurality of user applications.

As per claims 12, 14, 15, 17, 18, and 20 same reasons as claim 5 apply.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elmira Mehmanesh whose telephone number is (571)272-5531. The examiner can normally be reached on 8-4 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert W. Beausoliel can be reached on (571) 272-3645. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
